THIN CUTTING HORIZONTAL BANDSAW - 3552202

Model: TS400

TS 400 THIN CUTTING HORIZONTAL BANDSAW

TS 400 THIN CUTTING HORIZONTAL BANDSAW **TECHNICAL DATA:** SPECIAL DEVICE "OFFSET": After each cut the blade automatically comes down according to the measure, which the operator has set up in the PLC control. Therefore, it is possible to cut the timber from the top to the bottom and this increases cutting speed and precision DEVICE "DOUBLE SPEED": Thanks to a special sensor, the machine starts to cut the timber at a low speed, immediately after the saw-blade is inside the wood the cutting speed increases and this raises speed, precision and blade working hours Max. cutting capacity 420x200 mm Distance from blade to conveyor 2-150mm Min. cutting thickness from the top 0.75 mm Saw wheel diam. 800 mm. Saw wheel thickness 50 mm Sawblade length 5500 mm. Sawblade width 50 mm. Sawblade speed 17-34 m/s Conveyor belt size 400x4200mm Oil mist cooling system High accuracy hydraulic blade tension system (2500 kg) Variable feed speed 0-25 m/min Feed motor 2HP with inverter Main motor 30 HP with inverter Blade lift motor 2 HP Dust hood outlet diam. 125 mm x 2 Machine net weight Kg. 3100 Air loaded pressure roller Slow cutting start function spraying jets for blade lubrication motor IE3 INCLUDED CE rules
